

Visitor Manager System

Advanced Entry System Management,
Security and Recognition Systems

An easy to use Visitor Manager System that replaces the visitor book and produces professional visitor passes

Visitor Pass & Company Register Systems

Enter Visitor Information on their arrival and Instantly Print a Professional Visitor Pass. This can later be Swiped through a Barcode Reader which Updates the System to show the Visitor has left/re-entered the building. The option to Pre-Register your Visitors enables the Visitor Pass to be printed in advance and in large quantities.

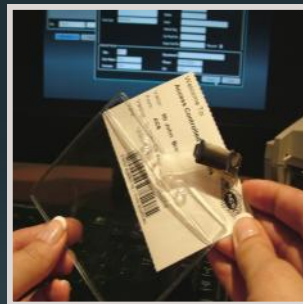

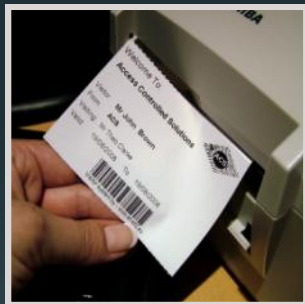

Visitor Manager Features:

- Fast Registration of Visitors
- Pre-Booking Facility
- Professional Image
- Improved Security
- Simple Inexpensive Passes
- Full Audit Trail of Visitors
- Photo of Visitor if Required
- Compliance with H&S
- Staff Control
- Contractor Management
- Vehicle Pass
- Time & Attendance Reports
- Fire Report
- PDA with Roll call List

HOW IT WORKS...

1. Enter Visitor & Company Details
2. Print Pass including H&S Data
3. Visitor Swipes Out Using Barcode Reader on Leaving building
4. Staff Can Log in/out via same Barcode Reader

NEW...

'PDA FIRE Register'

is a New *Portable Roll Call System* allowing you to quickly identify any unaccounted for people.

Visitor Manager System

Advanced Entry System Management,
Security and Recognition Systems

An easy to use Visitor Manager System that replaces the visitor book and produces professional visitor passes

Visitor Pass & Company Register Systems

Visitor Manager Features:

- Fast Registration of Visitors
- Pre-Booking Facility
- Professional Image
- Improved Security
- Simple Inexpensive Passes
- Full Audit Trail of Visitors
- Photo of Visitor if Required
- Compliance with H&S
- Staff Control - 'Mifare' Compatible
- Contractor Management
- Vehicle Pass
- Time & Attendance Reports
- Fire Report
- PDA with Roll Call List

'PDA FIRE Register'

An optional **PDA** with barcode scanner is automatically updated with visitor and staff registered on the system.

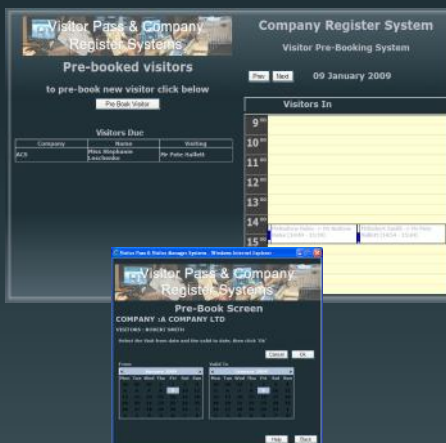

In the case of a **FIRE** you simply pick up the scanner, exit the building and scan all the badges or staff cards at the assembly point.

Visitor Pre-Booking Module

Our Web based pre-booking module offers any user on the network to enter expected visitors onto the system, simply and quickly.

Expected visitors will then appear on the reception PC enabling the operator to simply click on the visitor when they arrive to print the badge and the system books them in.

'VisiTouch' Module

is a Self Registration Touch Screen System designed especially for Unstaffed Reception Areas.
